DOCKET NUMBER
PROPOSED RULE PR-35 (44FR 21023)

May 22, 1979

Secretary of the Commission
U.S.N.R.C.
Washington, D.C. 20555

ATTN: Docketing and Service Branch

Dear Sir:

In reference to your announcement in monthly report from National Office, American College of Nuclear Physicians, April 19, 1979, Volume 3, No. 4.

Re: NRC proposes altering Medical Isotopes Committee.

I would like to request more information on this proposal, along with further criteria for membership and/or election to this type committee. Is it proposed that each institution have this type of committee in addition to their present radioactive drug research and radiation safety committees?

As a registered nurse, and member of the Johns Hopkins Medical Institutions Radioactive Drug Research Committee and coordinator of regulatory affairs in the Division of Nuclear Medicine, I have a great interest in this type of proposal and will certainly share this with the other committee members.

Thank you for your cooperation.

Sincerely,

Kathleen Stolz, R.N., B.A.
Project Coordinator
