DOCKET NUMBER
PROPOSED RULE

25
35(44FR21023)

Mr. Edward Podolak
Office of Standards Development
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Re: Proposed Rule - Human Uses of Byproduct Material; Change in
License Conditions for Certain Medical Licenses
Federal Register 4-9-79

Dear Mr. Podolak:

The above proposed rule, copy enclosed, for a radiation safety
committee appears to apply to all medical institution licensees.

Since the University operates a College of Medicine and the
University Hospitals and Clinics, we were concerned about the
consequences to us - such a committee would probably be a minimum
of fifteen at this institution

However, when our Radiation Protection Director contacted your
Area Three office, he was told that the proposed rule would not
apply to us. A reading of the rule as it was published does not
indicate to me that we are exempt.

May we please have a clarification as to what institutions
are covered? Thank you.

Sincerely yours,

H. W. Trease
Special Assistant
