Ms. Betty L. Wright  
Licensing Officer - International Programs  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Application Amendment - License No. <sup>XSNM-</sup>~~ER~~-1296

Dear Ms. Wright:

General Electric has received NRC License XSNM 1296 issued September 27, 1978.

Amendment is hereby requested incorporating the following changes:

1. Licensee:

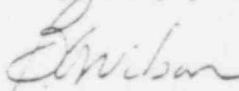

Revise M/C from 871 to 838

2. Ultimate Consignee in foreign country:

Central Valdecaballeros  
Princessa 5  
Madrid 8, Spain

3. All other conditions remain the same. It would be appreciated if the condition (#3) noting coverage of nuclear content only could be placed on the face of the license. If so, only one sheet would be needed to accompany each Shippers Export Declaration.

Very truly yours,

B. D. Wilson, Manager  
Government Relations & Export Licensing  
MC 838 (408) 925-1380
