Dear Mr. Helfrich:

Enclosed please find an application from Westinghouse Electric Corporation for a license to export 122,229 kilograms uranium enriched to 3.55% uranium-235 for use as reload fuel for the Beznau 1 and 2 reactors in Switzerland.

Before taking action on this license application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the issuance of the requested license would be inimical to the interests of the United States, including the common defense and security, and whether the proposed export meets the applicable criteria in the Atomic Energy Act as amended by the Nuclear Nonproliferation Act of 1978.

Sincerely,

Original signed by
