Arlington, Texas 76011

Gentlemen:

In response to your letter of 4 May 1979, I have ordered a leak test kit from Nuclear Sources and Services, Inc., of Houston, Texas (\$15.00). Therefore, it is anticipated that the required wipe test will be accomplished no later than Tuesday, 22 May 1979.

The Oklahoma Department of Health is not licensed to perform the actual readout and neither is the City of Lawton. I experimented with Civil Defense measurement devices and soon discovered that there was no correlation among the three instruments used. Our sludge measuring device utilizes Cesium.

A photocopy of the test results will be sent to you when available. Thank you for your patience.

Sincerely,

A handwritten signature in cursive script that reads "William R. McIntyre".

William R. McIntyre
