

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

June 29, 1979

Ms. Judy Danielson
American Friends Service Committee
1432 Lafayette Street
Denver, CO 80218

IN RESPONSE REFER
TO FOIA-79-141

Dear Ms. Danielson:

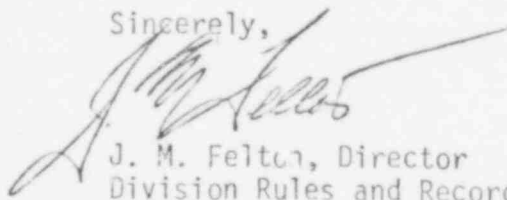

This is response to your letter dated April 6, 1979, in which you requested, pursuant to the Freedom of Information Act, copies of daily briefing papers and reports regarding emission data on particulate matter and gamma radiation at the Three Mile Island Nuclear Generating Station Unit 2 for March 28 and 29, 1979.

The enclosed report, "Title List-Publicly Available Documents-Three Mile Island Unit 2-Docket 50-320" and the attached printouts identify those records subject to your request on the Unit 2 Reactor which have been disclosed publicly as of June 20, 1979. These records have been placed in Docket File 50-320 at the NRC Public Document Room (PDR), 1717 H Street, N.W., Washington, D.C. 20555 where they are available for public inspection and copying. The charge for reproducing these records is eight cents (\$0.08) per page, as specified in 10 CFR 9.14(a) of the Commission's regulations. Copies can be obtained by writing directly to the PDR. You will be billed directly by the PDR Reproduction Contractor, Potomac Research, Inc.

The records responsive to your request are contained in the post-incident section of the report and printouts. Specific reference should be made to categories P, Q, and R. Please note specifically the environmental and radiological logs listed on p. 101.

This completes action on your request.

Sincerely,

J. M. Felton, Director
Division Rules and Records
Office of Administration
