FREEDOM OF INFORMATION
ACT REQUEST

FOIA 79-141
DATE: April 23, 1979

SUBJECT: Request for Reports Relative to Incident
at Three Mile Island

FROM: Robert J. Mitkus, Director *Robert J. Mitkus*
Surveillance and Analysis Division (3SA00)

TO: Donnie H. Grimsley, Director
Office of Administration
Nuclear Regulatory Commission

I am forwarding for action a letter submitted to us by the American Friends Service Committee under the Freedom of Information Act. On Tuesday, April 17, 1979, I spoke with Judy Danielson and explained to her that EPA was not involved in emissions functions on March 28 and 29.

She asked me who had primary responsibility for emission data, and I stated that the NRC was responsible. She went on to state that she is also requesting information for subsequent dates after March 29, 1979. I also informed her I will notify her of who I forward this request to for action.
