Re: DUKE POWER COMPANY (Oconee/McGuire Transshipment)
Docket No. 70-2623

Dear Mr. Ketchen:

During my deposition last Wednesday, you spent considerable time expressing interest in any affiliations I might have with professional organizations. Since, on the behalf of the NRC Staff, you have deemed this subject germane to the issues at hand in the matter of Duke Power Company, you will probably find it vital to know that today I have been invited to join the American Association for the Advancement of Science, and that I will join this fine association with voting privileges in the Electorate of Physics.

Sincerely,

Dimitri Rotow
