Texas Utilities Generating Company
ATTN: Mr. R. J. Gary, Executive Vice
President and General Manager
2001 Bryan Tower
Dallas, Texas 75201

Gentlemen:

This refers to the investigation conducted by Mr. R. C. Stewart and other members of our staff during the period April 5, 1979, through May 7, 1979, of activities authorized by NRC Construction Permits No. CPER-126 and 127 for the Comanche Peak facility, Units No. 1 and 2, concerning allegations by former Comanche Peak employees which appeared in news articles of the Fort Worth Star-Telegram on April 4, 5, 6 and 8, 1979.

The investigation and our findings are discussed in the enclosed investigation report.

Within the scope of the investigation, no items of noncompliance were identified.

Even though no items of noncompliance with NRC requirements were detected during this investigation, it was not possible to either substantiate or refute several of the allegations. We would appreciate an opportunity to discuss the results of the investigation in our office after you have had an opportunity to review the report. The reason for this discussion stems from our desire to obtain your reaction to the wide range of matters covered in this investigation.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed investigation report will be placed in the NRC's Public Document Room. If the report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be

prepared so that any proprietary information identified is contained in an enclosure to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this investigation, we will be pleased to discuss them with you.

Sincerely,

W. C. Seidle, Chief
Reactor Construction and
Engineering Support Branch
