Inspection Summary:

Special Inspection on February 7-10, 1979, as a result of unrestricted access to site on February 6, 1979. (Report No. 50-220/79-05)

Areas Inspected: Special announced inspection by a regional based inspector of the licensee's physical Security Program relative to physical barriers, access requirements, response and records. The special inspection involved 30 inspector-hours onsite by one NRC regional based inspector.

Results: Six items of noncompliance were identified in the four areas inspected; access requirements (Paragraph 5a 79-05-01), physical barriers (Paragraph 5B 79-05-02/03) and response/records (Paragraph 5C 79-05-04/05/06).
