Gentlemen:

This refers to the inspection conducted by M. S. Kidd of this office on March 5-3, 1979, of activities authorized by NRC License No. NPF-4 and Construction Permit No. CPPR-78 for the North Anna Units 1 and 2 facility, and to the discussion of our findings held with W. R. Cartwright and other members of your staff periodically during the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

We have examined actions you have taken with regard to previously identified enforcement matters and unresolved items. The status of these items is discussed in the enclosed report.

During the inspection it was found that certain activities under your license appear to deviate from commitments to the Commission, and have safety significance. This item is identified in the Notice of Deviation enclosed herewith as Appendix A. Please provide us in writing within 20 days of your receipt of this letter your comments including a description of corrective actions that have been or will be taken, corrective actions which will be taken to avoid further deviations, and the date corrective actions were or will be completed.
