Dear Sir:

Subject: Maine Yankee Piping Seismic Analysis Comparisons

Maine Yankee has completed the SHOCK-O/NUPIPE-SW comparisons as committed to in Reference (b). The results of these comparisons are similar to the previously run SHOCK-O/NUPIPE comparisons, thereby confirming our earlier conclusions regarding the adequacy of piping analyzed by the SHOCK-O program.

The results of these comparisons, which represent a considerable volume of material, will be available at the Maine Yankee plant site for your information.

Very truly yours,

MAINE YANKEE ATOMIC POWER COMPANY

Robert H. Groce
Licensing Engineer
