Dear Tom:

I just want to drop a note to thank you for forwarding to me NRC's recommendations regarding new requirements for reactor effluent monitoring. I do appreciate this advance information and I am sure it will be very useful and timely for consideration in the development of the new IEC standards.

I would appreciate receiving any other information in the future on the same subject or any activity related to reactor instrumentation. Thank you in advance and hope to see you soon again.

Best regards,

Ernesto A. Corte, Director
Electronic Systems Division
