UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

June 26, 1979

Mr. Perry Ballard, President
Perry Ballard Advertising, Incorporated
508 Broad Street, Suite 201
St. Joseph, MI 49085

Dear Mr. Ballard:

Thank you for your letter of April 20, 1979 to Robert Minogue concerning the HI-LO Welding Gage. We appreciate the offer of a trial system for evaluation. However, we believe that it would be more appropriate for you to contact directly industrial users of welding gages, including electric utilities, as potential purchasers of welding gages.

Sincerely,

A handwritten signature in cursive script, appearing to read "H. R. Denton".

Harold R. Denton, Director
Office of Nuclear Reactor Regulation
