OFFICE OF THE  
CHAIRMAN

The Honorable Orrin G. Hatch  
Minority Member, Subcommittee on Health  
and Scientific Research  
Committee on Human Resources  
United States Senate

Dear Senator Hatch:

The letter dated May 8, 1979, from you and Chairman Kennedy inquired about a request by Dr. Chase Petersen for funding of his study of the health effects of low-level ionizing radiation. We have been unable to locate that letter or any record or knowledge of its receipt within the Nuclear Regulatory Commission. Perhaps it was sent to or received by another agency.

We would be happy to look further into this matter if you wish us to do so.

Sincerely,

Joseph M. Hendrie  
Chairman
