Mr. Joseph M. Hendrie
Chairman
U.S. Nuclear Regulatory Commission
Washington, D.C. 20505

Dear Mr. Chairman: *

It has recently come to my attention that the General Services Administration is proposing to relocate the Nuclear Regulatory Commission Regional Office, now located in Arlington, Texas, to a location in the Fort Worth, Texas, central business area.

As the U.S. Representative for the Arlington area, I am concerned about the possible adverse impact that such a move might have on the mission of the NRC Regional Office, and on the Arlington central business area as a whole. I would appreciate having the benefit of knowing your views regarding this situation. Please be assured that I stand ready to work with you on this matter in any way that I can.

Thank you in advance for your consideration of this situation.

Sincerely,

Martin Frost
