Atomic Safety and Licensing Appeal Board
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

RE: Radiation Technology, Inc. BML 29-13613-02

Dear Mr. Salzman:

We are in receipt of the order involving the decision of the Board to turn down our request to have the oral arguments held in our jurisdiction, namely Morris County, New Jersey. We wish to take this opportunity to state emphatically that we will not go to the expense of making the trip to Bethesda and we feel that it is an infringement of our *due process* and we trust that the Board will reconsider and give us the opportunity of presenting oral arguments in this jurisdiction such that we should not be burdened with the expense of going to Washington.

We appreciate your consideration and await your reply.

Yours very truly,

Martin A. Welt
