Gentlemen:

Recent events occurring at sites under construction have generated considerable interest by Members of Congress and the Commission. We must continue to be responsive to these groups and must have complete and correct information on a timely basis of significant events which occur at your site.

We request that you include, when reporting information on events of interest to this office, any major acts of vandalism, demonstrations to be held, bomb threats or other threats as they are received.

We emphasize that this information will not be disseminated indiscriminately, but it is the type of information we need to know to be in a better position to assess and respond.

Your cooperation in this matter is appreciated.

Sincerely,

James G. Keppler
