Mr. Wm. B. Cottrell, General Chairman
1980 Thermal Reactor Safety Meeting
ANS Topical Meeting
P.O. Box Y
Oak Ridge, TN 37830

Dear Bill,

Thanks for your invitation to speak at the April 8-11, 1980, ANS Topical Meeting on Thermal Reactor Safety in Knoxville.

I'm willing to accept, on the understanding that early April is always prime hearing time for the Congress and I might get preempted by one of my Congressional Committees. I expect I could send you a substitute speaker in that event.

Sometime after the first of the year, you can help me out by suggesting some specific areas for my speech that would fit with the meeting emphasis. I expect we will all have a little clearer picture of how things stand by then.

Sincerely,

Joseph M. Hendrie
