Thirty five copies of the subject amendment, NEDE-24057-2-P, are being provided for your review and approval as a part of the agreement to provide test results as they become available. The basic document was provided for review in December of 1977.

This amendment is to document a summary of results of the Tokai-2 Instrumented Reactor Internals Vibration Testing Program. Tokai-2 is a 251-inch BWR/5 plant. All results are shown to be within acceptable limits.
