Director of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Quad-Cities Station Unit 2
Facility Operating License No. DPR-30
NRC Docket No. 50-265

Reference (a): T. A. Ippolito letter to C. Reed
dated July 27, 1979

Dear Sir:

Reference (a) transmitted Amendment No. 49 to License No. DPR-30 for Quad-Cities Station Unit 2.

Our review of this amendment disclosed a discrepancy between the paragraph numbers in our copy of the license and that of the NRC Staff. Further investigation indicated that during incorporation of Amendment No. 22 to DPR-30, dated February 26, 1976, we erroneously neglected to delete paragraph 3.E Recirculation Loop Inoperable from our copies of the license as directed.

In order to correct these identified errors, our copies of License No. DPR-30 will be changed as follows:

1. Paragraph 3.E Recirculation Loop Inoperable will be deleted.
2. Paragraph 3.F Security Plan will be renumbered 3.E.
3. Paragraph 3.F will be added as indicated in Reference (a).

Incorporating the aforementioned corrections should bring all copies of License No. DPR-30 into agreement.

Please address any questions you may have concerning this matter to this office.

Very truly yours,

for Robert F. Jansal
for Cordell Reed
Assistant Vice President
