DOCKET NUMBER
PROPOSED RULE PR-3132 (44 FR 24570) ⁽⁸⁾

May 15, 1979

Secretary of the Commission
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

ATTENTION: Docketing and Service Branch

This is in response to the letter of May 4, 1979 from Mr. Robert B. Minogue, Director of the Office of Standards Development, regarding veterinary use of specified by-product materials for in vitro clinical or laboratory testing.

I heartily endorse the proposed rule change, and I am confident that this change would return educational and scientific benefits without any increased threat to public health.

Sincerely,

R. L. Michel
R. L. Michel, V.M.D., Ph.D.
Professor and Head
