SUBJECT: PROGRESS REPORT FROM SOUTH CAROLINA ON
TRANSPORTATION SURVEILLANCE PROGRAM

Enclosed is a progress report submitted by South Carolina on its transportation surveillance program under contract with NRC and DOT. The report covers cumulative data for work performed during the first nine months of the second year of the contract -- October 1, 1978 to June 30, 1979. During this period, South Carolina concentrated exclusively on monitoring shipments of radioactive waste headed for the Barnwell disposal site.

If you have any comments, I would appreciate receiving them.
