U.S. NUCLEAR REGULATORY COMMISSION  
MAIL SECTION July 9, 1979

Mr. Charles E. MacDonald, Chief  
Transportation Branch  
Division of Fuel Cycle & Material Safety  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20535

Reference: (1) Docket No. 71-0024  
(2) U.S. Nuclear Regulatory Commission  
letter, dated April 27, 1979

Dear Mr. MacDonald:

As requested in Reference (2) above, I have enclosed seven (7) copies of the revised Hittman Nuclear & Development Corporation (HNDC) Quality Assurance program. The program has been revised to reflect changes in operating procedures and to more fully address the requirements of 10 CFR Part 71 Appendix E. The additional information you requested (as indicated by the asterisked attachment to your letter) is contained in both the HNDC Quality Assurance Manual, Procedure HNDC-Q-001, Revision 5 (copies 113 through 119 attached), and the referenced Quality Assurance Manual Addendum, Procedure HNDC-Q-001B, Revision 0 (copies 2 through 8 attached). These supersede Revision 4 of the Quality Assurance Manual (copies 63 and 64) submitted 6/16/78, which should be discarded at your convenience.

Should you have any questions concerning this submittal or the HNDC Quality Assurance Program, please contact the undersigned.

Very truly yours,

*[Signature]*  
Bruce Rowe  
Quality Assurance Manager
