(2) Material Status Reports

Gentlemen:

Plant I Inventory Difference (ID) for the May 7, 1979 high enriched uranium (HEU) physical inventory exceeded the Limit of Error (LEID); however, the LEID was within the constraints of 10 CFR 70.51(e)(5). Information required to comply with 10 CFR 70.53(b)(1) is contained in the attachment to this letter.

Since a disclosure of the information contained in the enclosure would tend to weaken the safeguards and security measures and is deemed commercial and financial proprietary information within the intent of 10 CFR 9.5(a)(4), it should be withheld from public disclosure under the provisions of 10 CFR 2.790(d).

Very truly yours,

K. D. Hensley
