Joseph Hendri, Chairman
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Chairman Hendri:

Thank you for directing the NRC Staff to supply information I requested pertaining to the six nuclear power plants located on the shores of Lake Michigan.

Enclosed is a copy of my report to the Board of Directors of Lake Michigan Federation regarding the status of spent fuel storage at the six plants. I would very much appreciate your and/or your staff's comments -- including any correction of information contained therein.

Again, I am grateful for your cooperation.

Sincerely,

Jame Schaefer
