(Document Control)

Note to: Distribution List

From: Eric Weiss, SD

This report has been updated as of the date shown. If you wish to change distribution of this report, receive additional copies, etc. please contact me at extension 35942.

I have also attached to this report:

1. List of Society and Organization Acronyms;
2. Notes about some conventions used in NRC-15;
3. Privacy Act Statement applicable to NRC-15.

A NOTE ABOUT SOME CONVENTIONS USED IN THE  
COMPUTER LISTING OF NRC FILE 15 "NRC PERSONNEL  
INVOLVED IN THE DEVELOPMENT OF NUCLEAR STANDARDS"

1. The file is intended to list the membership of NRC personnel in committees that develop national standards. NRC personnel participating should have a letter signed by the Director, Office of Standards Development approving their nomination to these committees.
2. The file lists committees by their secretariat so that all committees managed by a particular secretariat can be identified. Thus ANS 18-20 is an ANS committee and it is not listed as ANSI 18-20 even though the designation "18-20" is an ANSI designation. Theoretically, virtually all the committees listed could be identified as ANSI committees but this would make this file less useful.
3. The file identifies committees in a format convenient for computer sorting. Where most people would write ANS 2.1 the listing prints ANS-02.01 so that the computer will list the committees in proper sequence.
4. The file often identifies the hierarchy of the standards committee organization, ASME-BPVC SC III SGD WGC "Containment" indicates that this is a working group on containment that reports to the subgroup on design that reports to subcommittee III that is part of the Boiler and Pressure Vessel Code of the American Society of Mechanical Engineers.
5. The file identifies committees by their title. In the absence of a well known title for the committee itself, the title of the standard(s) the committee is developing may be listed, but this is only a partial list of the standards. Space limitation prohibits listing more than one or two standards.

Privacy Act Statement  
NRC-15

System Name: National Standards Committee Membership Files - NRC

System Location:

Primary System - Office of Standards Development, NRC, 5650 Nicholson Lane, Rockville, Maryland

Duplicate Systems - Duplicate systems exist in whole or in part at the National Institute of Health Computer Facility, c/o the Office of Management and Program Analysis located in the Maryland National Bank Building, 7735 Old Georgetown Road, Bethesda, Maryland.

Categories of individuals covered by the system: NRC employees who are serving on committees, subcommittees, working groups, etc., that are developing nuclear standards.

Categories of records in the system: This system is a comprehensive record of NRC personnel on the nuclear standards committees and contains members' names and the names of the committees to which they belong.

Authority for maintenance of the system: Section 161(b), Atomic Energy Act of 1954, as amended, 42 U.S.C. 2201(b).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These records may be used:

- a. To provide information to persons or agencies requesting this information, including but not limited to: (1) persons using the NRC Public Document Room and (2) the Department of Energy RDT Standards Office of Oak Ridge National Laboratory (ORNL), Oak Ridge, Tennessee. ORNL uses this information as part of a document titled, "Personnel Involved in the Development of Nuclear Standards in the United States" and the National Technical Information Service, U.S. Dept. of Commerce, sells this document to the public.
- b. For the routine use specified in paragraph number 5 of the Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained on lists and computer tape and disk.

Retrievability: Records are indexed by the individual's name, by individual's office or region and by the committee title.

Safeguards: Maintained in unlocked file cabinet.

Retention and disposal: Updated when information is out of date. The information is retained until the person is no longer a member of the committee or

no longer as NRC employee, whichever occurs first. Destroyed by computer deletion.

System manager(s) and address:

Director  
Office of Standards Development  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Notification procedure:

Director  
Office of Administration  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Record access procedures: Same as "Notification procedure."

Contesting record procedures: Same as "Notification procedure."

Record source categories: Information in this system of records comes from the individual to whom it applies or from his supervisor.
