Dear Mr. Helfrich:

Enclosed please find an application from Conax Corporation for a license to export replacement components to be installed in the electrical penetration assembly at the Almaraz Nuclear Reactor facility in Spain. Please note that the applicant anticipates shipping all of the items before the end of the year.

Before taking action on this license application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the issuance of the requested license would be inimical to the interests of the United States, including the common defense and security, and whether the proposed export meets the applicable criteria in the Atomic Energy Act as amended by the Nuclear Nonproliferation Act of 1978.

Sincerely,

Original signed by
