July 11, 1979

United States Nuclear Regulatory Commission  
Office of Inspection and Enforcement  
Region 1  
King of Prussia, PA 19406

Attention: Mr. R. Keimig, Section Head

Dear Sir:

As we discussed in our recent telephone conversations, there was a misunderstanding as to the additional data and information required to supplement our initial response to Bulletin 79-02. Following my discussions with Mr. Lazarus on this matter, we are presently compiling the additional data. It is expected that this information will be submitted on or before July 20, 1979.

I believe this is in agreement with our discussion on July 11, 1979, however, should you have any questions please contact me.

Very truly yours,

YANKEE ATOMIC ELECTRIC COMPANY

D. E. Moody
