NRC 702

MAY 24 1979

Mr. George Fusco
P.O. Box 7312
Carmel, CA 93921

Dear Mr. Fusco:

Thank you for your letter commending our orders of March 13, 1979, to shut down five nuclear power plants in the eastern United States because of questions about the ability of their piping systems to withstand earthquakes. Our objective is to review the situation in an expedited and disciplined manner so that these plants can be returned to operation with assurance that this will not constitute a threat to the public health and safety.

Sincerely,

A handwritten signature in cursive script that reads "Harold R. Denton".

Harold R. Denton, Director
Office of Nuclear Reactor Regulation
