(Trojan Nuclear Plant)
Docket No. 50-344
(Control Building)

Dear Mr. Rosolie:

At the Prehearing Conference on March 30, 1979, you asked to be informed of any applications for amendment to the Trojan operating license that have been filed and are being reviewed which are substantial in nature and have a bearing on the issues in Phase II of the referenced proceeding (Tr. 3210). In this regard, the Staff has reviewed all of the applications for amendment to the Trojan license which are currently pending. Based on this review, we have determined that none of the applications has any bearing on the issues involved in Phase II. As indicated in the enclosed note from C. Trammell to J. Gray, dated May 1, 1979, until Phase II is concluded, we will continue to review any further applications for amendment to the Trojan license with a view toward possible relevance of such applications to this proceeding. The Licensing Board and parties will be informed promptly of any such applications which have a bearing on Phase II.

A response to your other question - whether any of the regulatory guides listed in PGE-1020, §3.2.2.2 are currently under review or being reconsidered or revised (Tr.3181) - is currently being prepared and will be forwarded to you and the Licensing Board and other parties as soon as it is available.

Sincerely,

Joseph R. Gray
