Docket Nos. 50-445
50-446

COMANCHE PEAK STEAM ELECTRIC STATION
1981-83 2300 MW INSTALLATION
PRESSURE TRANSMITTERS
FILE NO. 10110

Dear Mr. Seidle:

On June 13, 1979, we verbally informed your Mr. R. G. Taylor, CPSES Resident Inspector, of a problem with two pressure transmitters at CPSES, that we were evaluating as a "potentially" reportable deficiency within the definition of 10 CFR 50.55(e). Subsequent evaluation determined that the transmitters in question were non-IE and therefore not subject to the requirements of 10 CFR 50.55(e).

If you have any further questions, please advise.

Very truly yours,

R. J. Gary
