Mr. Don W. Warembourg, Manager
Nuclear Production
Public Service Company of Colorado
P. O. Box 361
Platteville, Colorado 80651

Dear Mr. Warembourg:

Your letter of June 11, 1979 (P-79126) requests an extension of the temporary relief from LCO 4.3.10 as specified in our letter of May 25, 1979 until June 15, 1979. The reasons given were inability to schedule the operator tests as originally planned and delays experienced in receiving replacement parts for your snubbers.

We feel that an extension of the temporary relief from LCO 4.3.10 until June 15, 1979 is acceptable for the reasons enumerated in our letter of May 25, 1979.

Should you have any additional questions, please let us know.

Sincerely,

William P. Gammill, Assistant Director for
Standardization and Advanced Reactors
Division of Project Management
Office of Nuclear Reactor Regulation
