Mr. Harold R. Denton
Director
Office of Nuclear Reactor
Regulation
United States Nuclear Regulatory
Commission
Washington, D.C. 20555

Re: Omaha Public Power District
Fort Calhoun Station, Unit No. 1
Docket No. 50-285

Dear Mr. Denton:

As counsel for Omaha Public Power District, we hereby submit three (3) signed originals and nineteen (19) copies of a document entitled, "Application for Amendment of Operating License," together with forty (40) copies of the proposed technical specifications and safety discussion. The application seeks to remove the requirements that, when one train of a redundant system is inoperable, non-redundant pumps and valves in the remaining train be cycled.

The Amendment is exempted from the fee requirements of 10 C.F.R. §170.22 since it is submitted in response to a Commission request and is intended to simplify and

clarify the technical specifications, has only minor safety significance and is submitted for the convenience of the Commission.

A Certificate of Service showing service of these documents on the person listed therein is also enclosed.

Very truly yours,

Le Boeuf, Lamb, Leiby & MacRae
