NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

MAY 29 1979

MEMORANDUM FOR: Roger J. Mattson, Director, Division of Systems Safety, Office of Nuclear Reactor Regulation

FROM: Norman C. Moseley, Director, Division of Reactor Operations Inspection, Office of Inspection and Enforcement

SUBJECT: QUESTIONS OF POTENTIAL SAFETY CONCERN

Discussions between J. S. Creswell, Region III inspector, and S. E. Bryan have disclosed safety concerns that Mr. Creswell has that resulted from the TMI-2 incident. These concerns are listed in the enclosure as Item Nos. 1 through 5. (The remaining two will be referred to V. Stello).

Since these items relate to matters leading to licensing decisions, we request that DSS evaluate the concerns and provide a response to me. I will appreciate any early attention you can give these concerns.
