Dear Sir/Madam:

As you know, Health, Education and Welfare has almost identical regulations which West Virginia University has been complying with since they were finalized. In keeping with President Carter's expressed desire to streamline regulations and enforcement, we would urge the self-study requirements mentioned in your regulations be met by prior self-studies completed for other federal agencies. In our case, this would mean the self-study done under HEW regulations.

Sincerely,

*Marion F. Dearnley*
