DOCKET NUMBER
PROPOSED RULE

NRC PUBLIC DOCUMENT ROOM

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Att: Docketing and Service Branch

Dear Secretary:

Staff of the Radiation Control Program of the Department of Social and Health Services have reviewed the Nuclear Regulatory Commission (NRC) proposed rule "Nondiscrimination in Federally Assisted Commission Programs; Application to the Handicapped" as published in the Federal Register, Volume 44, No. 90, Tuesday May 8, 1979.

It is apparent that the requirements of the State of Washington in this area of concern remain compatible, though not identical, to those of the Federal government established by the Secretary of Health, Education and Welfare and would therefore pose no conflict in implementation as pertains to programs in which the NRC provides financial assistance to the State.

Sincerely,

R. C. Will, Supervisor
Radiation Control Program
