Director
Office of Nuclear Materials Safety & Safeguards
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. James G. Partlow, Chief
Material Control Licensing Branch

Dear Sir:

Reference: NRC License SNM-1097, Docket #70-1113

Subject: REVISIONS TO FUNDAMENTAL NUCLEAR MATERIAL CONTROL PLAN, S-9

With reference to activities authorized by SNM-1097, General Electric Company hereby submits the latest revision of the Fundamental Nuclear Material Control Plan (FNMC) for the fuel fabrication plant in Wilmington, North Carolina.

Also included are the accompanying revisions to index pages (i.e., Table of Contents, List of Figures, List of Tables and List of Effective Dates).

Pursuant to 10 CFR 70.32(c), we have determined that all of the changes, except that in Section 7.0 on page C-15, do not decrease the effectiveness of the FNMC Plan and, therefore, Commission approval is not required prior to these changes being made.

Pursuant to 10 CFR 170.31, enclosed is a General Electric check for \$3,500 for processing of the requested change in Section C-7.0 on page C-15 of the FNMC Plan.

Pursuant to 10 CFR 2.790(d), General Electric requests that this information be withheld from public disclosure as this material identifies General Electric procedures for safeguarding licensed special nuclear material.

General Electric personnel would be pleased to discuss the revisions to the FNMC Plan with you and members of your staff as you deem necessary.

Very truly yours,

GENERAL ELECTRIC COMPANY
