

In Whom It May Concern,

Recently on the Phil Donahue show on TV a Senator Hart from Colorado stated that when 5 reactors on the East coast were shut down for inspection a hue & cry went up from people objecting to increased power bills etc.

It occurred to us that people who were opposed to nuclear energy were not writing enough letters.

Our family would be happy if Maine Yankee were never reopened even if it meant a large increase in power bills!

What we object to is being forced to pay an increased rate for something we are totally opposed to in

the price paid
we say give us those
higher rates til something
safer than nuclear power
can be found.

Thank you.
