PETITION RULE PRM-35-1 (44 FR 26817)

May 28, 1979

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Docketing and Servicing Branch

Gentlemen:

I wish to register my strong support for the position taken by George V. Taplin, M.D., Federal Register/Vol. 44, No. 89/Monday, May 7, 1979/Notices Page 26817, in opposing the item published in the Federal Register (44 FR 10358). This amendment clearly constrains intelligent physician use of these agents to the detriment of patient care, while adding no recognizable benefits to the public.

Very truly yours,

Harold L. Chandler, M.D.
