DOCKET NUMBER
PROPOSED RULE

PR - 9(44FR 22746)

Secretary of the Commission
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Secretary:

How wonderful to read a notice of proposed rulemaking that I did not have to refer to my legal counsel or administrative staff for interpretation. The format is logical and concise. The language and sentence structure is clear and understandable.

In keeping with the thrust of E.O. 12044, I'm keeping my comments brief. Suffice it say, you've done a masterful job. Keep up the good work.

Sincerely,

Paul L. Broughton
