Request for Additional Information

1. Instead of referencing attachment H, include a current organization chart that identifies the organizational elements under the control of the QA program.
2. Provide a statement that shipments will not be made unless all tests, certifications, acceptances, and final inspections have been completed.
3. In part 7, provide statements that: Results of audits will be maintained and reported to management. Audit reports will be evaluated and deficient areas corrected. The audits will be dependent on the safety significance of the activity being audited, but each activity will be audited at least once per year. Audit reports will be maintained as part of the quality assurance records. Members of the audit team shall have no responsibility in the activity being audited.
