Re: Taper Threaded Reinforcing Steel Coupler

Dear Mr. Kniel:

With our letter of August 26th we submitted to the NRC engineering and test reports covering the product in caption for NRC review and acceptance as a Miscellaneous Topical Report.

We understand the review process could take as long as a year.

In view of the many years already spent on this as outlined in our letter submitting the reports we are interested in expediting the process as much as possible.

Please advise if there is anything we can do to assist you in your investigation at this time.

Very truly yours

FOX INDUSTRIES

Charles J. Fox

REMARKS

Ray Cline, Jr., of Fox Industries, came by this morning (~9:30am to 10:30am) to coordinate and update his information on the status of the Fox splice in the licensing process, and to check on responses to recent letters from Mr. Fox.

Do NOT use this form as a RECORD of approvals, concurrences, disapprovals, clearances, and similar action.
