Dear Ron:

In my letter of May 22, 1979, I requested that time be allowed on the agenda of the Board of Oil, Gas and Mining at their June 27 meeting for presentation by Energy Fuels Nuclear, Inc. with regards to a surety arrangement for the reclamation and decommissioning of the White Mesa Mill near Blanding. I believe it would be appropriate to cancel our request for an appearance before the Board at the June meeting and instead schedule an appearance before the Board at their July meeting. This would allow us additional time to complete the engineering study on the cost of the reclamation. This report will be submitted to you as soon as it is completed within the next week or so.

If there are any problems with delaying our appearance until the July meeting, please let me know.

Sincerely,

*George E. Glasier*
