Docket No. 50-304

Commonwealth Edison Company  
 ATTN: Mr. Byron Lee, Jr.  
 Vice President  
 P. O. Box 767  
 Chicago, IL 60690

Gentlemen:

Thank you for your letter dated May 17, 1979, providing us with additional information concerning the apparent noncompliance identified in our letter dated April 18, 1979. Our inspector observed the inservice inspection activities performed by CONAM and reviewed the data and records related to these activities. However, since our inspector was unable to observe the X-Rite Model 301 densitometer, S/N 2699, in use and it could not be established from existing records that this instrument was used, we have concluded the matter does not now appear to involve noncompliance and we will revise our records accordingly. We will examine this matter further during a future inspection.

Your cooperation with us is appreciated.

Sincerely,

G. Fiorelli, Chief  
 Reactor Construction and  
 Engineering Support Branch
