DOCKET NUMBER **5**
PROPOSED RULE **PR-31,32 (44FR 24570)**

Secretary of the Commission
United States Nuclear Regulatory Commission
Washington, D.C., 20555

Attention: Docketing and Service Branch

Dear Sir:

I have received the notice from Mr. Minoque regarding contemplation of adding veterinarians to those authorized to use limited quantities of specified by-product materials for in vitro testing (10 CFR Parts 31 and 32).

As graduate veterinarians have as much, if not more training in diagnostic radiology and radiobiology than the graduate physician, I feel this change is long past due. Research areas in which many veterinarians are involved show the need for such treatment.

I fully support the proposed inclusion of veterinarians under this general license.

Sincerely,

S. K. Kneller, D.V.M., M.S.,
Diplomate, A.C.V.R.
