Re: License No. 12-15641-02E and letter of April 23, 1979

Attn: A. B. Davis  
Chief Fuel Facility and Materials Safety Branch

Dear Sir:

In reference to your letter of April 23rd of the noncompliance to regulations, where you requested three clarifications to the Section 2.210 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations:

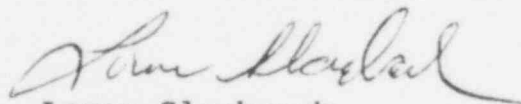

Items 1 - 3: We have not taken any corrective action relative to this license. We have contacted the Nittan Corporation who have manufactured the SD48 Smoke Detector in Japan. They have applied for a license for the import and possession of the SD48 Smoke Detector. This application was submitted approximately April 20, 1979, to the Nuclear Regulatory Commission in Washington, D.C. They will import this smoke detector and stock this smoke detector and it will be purchased by Dor-O-Matic on exempt status, from the Nittan Corporation in Des Plaines, Illinois.

Until such time as Nittan has received their license for the SD48, we will continue to comply with the immediate action letter of April 6.

If there is any further information required, please contact me.

Yours very truly,

DOR-O-MATIC Division  
REPUBLIC INDUSTRIES, Inc.

  
Loren Slaybaugh  
Vice President, Engineering
