Dear Mr. MacDonald:

Enclosed please find seven (7) copies of Foster Wheeler Energy Corporation procedure "Radiation Safety - Quality Assurance Requirements for Radiography Source Shipments", Revision 2, dated May 30, 1979.

Paragraph 10.5 has been added to this procedure to reflect the comments noted in reference 4 above.

In addition, per your request, enclosed please find seven (7) copies each of organization charts excerpted from the Foster Wheeler Energy Corporation "Radiation Administrative Control - Operating and Emergency Procedures" manual as follows:

- A) FWEC Mountaintop, Pennsylvania manufacturing plant,
- B) FWEC Construction Department,
- C) FWEC Dansville, New York manufacturing plant,
- D) FWEC Panama City, Florida manufacturing plant

These charts were submitted with our original application of June 26, 1978. As they were apparently approved by your April 13, 1979 letter, they were not resubmitted with our revised submittal of May 4, 1979, making that submittal appear "incomplete".

Very truly yours,
FOSTER WHEELER ENERGY CORPORATION
