U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

ATTN: Docketing and Service Branch

Dear Sirs:

1. I recently received a copy of the proposed rule change pertaining to 10 CFR Parts 31 and 32: In Vitro Uses of Byproduct Material; Addition of Veterinarians to the In Vitro General License. The proposed rule would add veterinarians to the general license in §31.11 of 10 CFR Part 31 and a conforming amendment would also be made to §32.71 of Part 32 which is the specific license for the manufacture and distribution of byproduct material for certain in vitro clinical or laboratory testing under a general license.

2. I would like to go on record as supporting this rule change. The reasons given for the change are sound.

3. Thank you for the opportunity to register my opinion.

Sincerely,

Paul E. Ross, DVM
