NRC PUBLIC DOCUMENT ROOM

Secretary, U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555  
Attn: Docketing and Service Branch

Gentlemen:

The proposed rules implementing the Rehabilitation Act of 1973, P. 93-112 as amended appear to be proposals to correct discrimination of long standing. The proposals seem to be in excellent order and will be of great help to that portion of our population which is very much in need of this welcome change in our law.

Most sincerely,

*Eileen Foley*
